As we understand that the eProject is a step-by- step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a projectimplementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. ladder approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank to our professor and others student for the addorable supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knownledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,

Team Group 06.

Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

Providing detailed and accurate information about each product. Integrating advanced search technology so that customers can easily search for products. Securing customer information and transactions. Providing quick and efficient customer support. With these improvements, the website will provide the best shopping experience for customers and establish a reputable brand in the online crystal selling industry.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back ***eprojects@aptech.ac.in*** as the assigned schedule.

Design Plan: Crystal Product	Document Name: Problem Definition	SWD/Form No.02/CRS/Ver1.0
Effective Date: 09-09-2023	Version 1.0	Page No: 2 of 31

Problem Definition

1. Problem definition :

In today's e-commerce world, online shopping has become popular. Crystal is a product that many people love because of its sparkling beauty and the feng shui meaning it brings. However, finding a reputable and quality website specializing in selling crystals is not easy. Many existing websites do not provide enough information about the product, do not have an effective search function, or do not secure customer information. The goal of this project is to build an online store specializing in crystals, providing customers with the best shopping experience.

2. Identify the problem:

- Provide product information to customers (photos, sizes,...)
- Provide details about the product's ingredients and uses
- Provide full ordering facilities
- Provide customer management functions
- Provide maximum sales links through social networks
- Provide a support page for customer inquiries and requests

3. Customers:

- Can view product information
- Easily choose products and pay online
- Can view information about the business
- Can give suggestions to businesses.

Customer Requirements Specifications

Design Plan: Crystal Product	Document Name: Problem Definition	SWD/Form No.02/CRS/Ver1.0
Effective Date: 09-09-2023	Version 1.0	Page No: 3 of 31

User:

Input data:

1. User selects energy stone type and quantity, then enters payment and shipping information
2. The user clicks on the input to view ice quantity information

Process data:

3. The system downloads information about the amount of stone from the database or from the web.
4. System validity checks payment and delivery information, authenticates orders and sends authentication emails to users
5. The system will filter information that matches the search keyword.

Output data:

6. The system will filter information that matches the search keyword
7. Notify the order success and send a confirmation email to the user
8. Display matching products, otherwise the search message will fail

1.2

What is a crystal?

Crystal, also known as quartz, is a natural stone with the ability to hold and transmit energy. In many ancient cultures, humans have used crystals to peer into the future, communicate with ancestors, and heal illnesses. Crystals are known as a stone that contains a lot of powerful energy to apply to many different areas of life. Especially, crystals have a use in treating mental illness. It is dubbed the "soul cleanser" because it helps our soul to be revived by purifying toxic factors, increasing resistance.

The Mystical Properties of Crystals

Crystals not only play a significant role in improving one's personal mood but also have the ability to create a field of negative ions to cleanse the surrounding environment, helping to shield individuals from misfortune and other negative factors. Moreover, this type of gemstone aids in dispelling static electricity and mitigating the adverse effects caused by it. Furthermore, crystals possess the ability to connect us with the universe, the stars, and higher sources of energy. Thanks to this capability, crystals can assist in balancing the body's chakras, thus enhancing both physical and mental well-being. They become a valuable tool in meditation practices, fostering harmony with nature, and promoting spiritual development. In summary, crystals are not just beautiful stones; they are a source of energy and mystical potential waiting to be explored and utilized. They offer an excellent means to explore the natural world and discover the capabilities of the human soul and body.

The Transformative Power of Energy Stones: Shared Experiences

Some people have shared that using energy stones has helped them feel relaxed, reduce stress, and enhance their optimism. Stones like quartz, amethyst, or rose quartz are

1. 2

Why Natural Gemstones

Natural gemstones have undergone millions of years of transformation, containing an immense source of energy. These stones have the ability to absorb, focus, and preserve energy due to the intense pressure they've experienced. This very source helps purify negative energy, transforming it into positive energy. Natural gemstones have long been considered as talismans, as people have known to carry them or embed them in their weapons since ancient times.

The Remarkable Benefits of Gemstones

While in the West, gemstones are primarily used for energy restoration, in the East, they harness the energy of gemstones to attract wealth. According to Western beliefs, individuals choose gemstones that resonate with their birth month. In Eastern feng shui, on the other hand, the emphasis is on colors, with the aim of bringing prosperity and abundance. These gemstones are believed to bring luck in business and commerce, opening up pathways to success in one's career and endeavors.

A Gift from Esprit Healing

Esprit Healing was born with the purpose of providing you a place to shop for quality precious and semi-precious gemstones at affordable prices. These gemstones not only serve as decorative items to enhance your aesthetics but also possess healing properties to alleviate stress and tension. They bring a fresh stream of energy into your life and living spaces without breaking the bank. They make meaningful gifts for birthdays or wedding anniversaries. Esprit Healing takes pride in bringing gemstones from all around the world closer to you.
